### TORPEDO BOAT TO AID SEARCH

Try to Remove Nobile and  
Five Companions To An  
Ice Breaker

The outside world today is still without word of Capt. Roald Amundsen, Lief Dietrichsen and P. G. Guldbrand, who have been missing since they hopped off in a French seaplane at Tromsø, Norway, on Monday to search for the Nobile expedition in the Arctic.

An effort will be made to remove Gen. Umberto Nobile and his five companions on an ice breaker from the ice floe on which they sought refuge off Northeast Land after the disaster to the Italia.

The fate of the remaining 10 members of the Nobile expedition remains a mystery.

The Norwegian government will send a torpedo boat into the Arctic sea to search for Amundsen and his companions and the missing explorers from the Italia.

Norwegian aviators Hjalmar Riiser-Larsen and Lieut. Luitzow Holm have been instructed to make a systematic search of the west coast of Spitzbergen for the Amundsen plane.

Relief work will be hastened owing to the fact that this is the season of the year when thick fogs develop suddenly over the Arctic ice fields.

### PLANT CONTRACT AWARDS TO BE MADE MONDAY

Hiddleston Notifies State  
Of Council's Action  
On Supervision

The general contract for the construction of the new sewage disposal plant, and contracts for equipment and appurtenances will be awarded Monday and work on the plant start immediately, it was announced today, following city council's action in placing the entire control of the plant in the service department.

The Ohio department of health was notified of the city's action in placing the control of the plant in the hands of the department today by Mayor Phil G. Hiddleston in a letter to Dr. John E. Monger, director. Dr. Monger, in a letter to the mayor and the city council, recently demanded that the city see that the plant is placed under capable supervision.

Council was unanimous in the decision to place the entire matter into the service department's hands, giving it a vote of confidence. Members stated that they were certain that the matter of strict and capable supervision would be attended to by the department.

Mayor Hiddleston, in his letter, said: "Your letter was referred to the service department as being a matter which was entirely administrative. It was recommended that the service department instruct the city engineer to continue work on the plant as he saw fit."

"We have placed this matter of taking care of Salem's sewage and the responsibility of it, entirely on P. S. Barckhoff, our city engineer. Mr. Barckhoff has shown in the past that nothing but the best operation is satisfactory to him so we feel that all necessary supervision will be adequately provided for through his department."

"We wish to thank you for your prompt action in the matter of approval."

Serb Garrisons Are Being  
Strengthened Thruout  
Jugoslavian Nation

Vienna, June 22—Soldiers at Agram (Zagreb) restored order today after a violent outbreak of political rioting in which four persons were killed and 43 seriously wounded.

The violence resulted from the assassination of two Croatian peasant deputies in parliament at Belgrade on Wednesday—Paul Raditch and George Basaritch.

The bodies of the slain deputies arrived at Agram this morning and were received by a huge crowd, said a dispatch from Belgrade. The whole city is covered with black flags. The burial will take place on Saturday.

The Croatian (opposition) newspaper Nacost, published at Agram, charges that the assassinations "resulted from the plotting of a corrupt clique at Belgrade who sought to do away with the strongest leaders of the campaign for political independence for the Croats."

This newspaper demands that separate and independent states be created for the Croats, Slovenes and Serbs. At the present time all these states are part of the Jugoslavian kingdom.

The Serb garrisons at Belgrade and throughout Croatia are being strengthened.

News that Stefan Raditch, chief leader of the Croatian peasant party, is in a serious condition from his wounds, has inflamed the feelings of the peasants still higher.

### INDICT 10 FOR EMBEZZLEMENT OF FIRM FUNDS

Were Former Directors  
Of Defunct Cities  
Mortgage Company

Columbus, June 22—Ten former directors of the defunct Cities Mortgage company, Columbus, the failure of which caused a loss of \$2,750,000 to about 2,000 stockholders in Ohio, were today indicted for embezzlement by the Franklin county grand jury here.

The former directors indicted are: Harvey Smith, Columbus, former secretary of state; E. C. Bowman, Columbus; Hugh S. Campbell, Mt. Vernon; Benjamin F. Carter, Columbus; Joseph W. Harner, Columbus; Clarence G. Johnson, Columbus; Alf E. Querineau, Columbus; Calvin B. Trotter, Columbus and Charles A. Walker, Columbus.

These ten directors were charged with the specific embezzlement of slightly over \$18,000 that was alleged to have been paid out to the men in two separate dividends.

Separate indictments also were returned against Smith, Querineau and Guy H. Patterson, Columbus, charging the three men with embezzlement of \$285,000, which according to the indictment they received in illegal dividends declared by officers of the company.

The men are to be arraigned on the charges Monday morning, county prosecutor said.

The defunct concern is now in the hands of a receiver, John A. Kelley, Columbus, who was appointed by common pleas court here.

Bankruptcy proceedings were instituted by A. A. Schramm, of Marietta, who as administrator of the estate of the late Louis Cooley, one of the stockholders, asked that the firm be adjudged bankrupt and a receiver be appointed.

Upon payment of various sums into the assets of the defunct mortgage company, five directors of the company were released from civil liabilities in connection with the failure of the concern.

Those released were Campbell, Carter, Johnson and Smith who were all indicted by the grand jury today. The other former director who was released from civil liability was Harry D. Freeman of Columbus. He was not indicted by the grand jury.

### Prohibition Question Stalks Like Ghost Among Arriving Delegates

By GEORGE R. HOLMES

Houston, June 22—The prohibition issue stalks like a giant ghost today among the early arriving delegates to the Democratic national convention.

It was uppermost in everybody's mind, it was guessed about and speculated upon in the hotel lobbies wherever politicians gathered; it figured in every brand of pre-convention speculation.

Only a negligible few of the arrivals, whether delegates or so called leaders, believe that the fight over the presidential nomination will be anything but short and snappy.

The opinion that Gov. Al Smith will be nominated within three ballots is so universal that it is accepted on all sides as a fact, with the possible exception of those who are backing Sen. James A. Reed. The Reed managers still grudgingly insist that Smith isn't nominated.

Dry Issue Paramount

The prohibition issue, or rather the question of how the Democrats are to deal with it in their platform next week, has become, for the time being at least, the paramount issue in this pre-convention maneuvering.

Norman Mack, the veteran New York national committeeman, raised the issue by his bald statement that Gov. Smith was and is in favor of allowing each state to make its own interpretation of the dry laws.

Sen. George R. Van Namee, campaign manager for Gov. Smith, contributed to it by his rather sharp rejoinder that no one was authorized to speak for the New York governor. And Smith himself added to it by re-asserting at Albany last night his belief that the present Volstead law should be amended.

The governor said in effect, that the fact he was a candidate for the

White House had not operated to change his mind on this point in the slightest.

Like Red Flag

The governor's statement was a red flag to the radical and professional drys who are now gathering here in force to prevent, if possible, the nomination of a "wet" candidate, the Anti-Saloon League, the W. C. T. U. and their kindred organizations laid down a veritable barrage of statements today, warning the incoming delegates that "the nomination of Smith or any other wet" means dire things next November.

Despite the avalanche of statements and threats on both sides, it appeared wholly likely today that the platform which is to be adopted next week simply will reaffirm the plank of 1924, which pledged the party to rigorous enforcement and respect for all laws. Such is the advice of even those temperate drys like Sen. Pat Harrison of Mississippi who already is looking beyond Houston and toward November.

Not Single Out One Law

Senator Harrison does not believe that it is necessary for the Democrats to single out one law, the Volstead law, for example, and pledge it undying support and allegiance. If that law is to be singled out for

### SMITH AFFIRMS HIS OPPOSITION TO AMENDMENT

Thinks Provisions Should  
Be Changed to Permit  
State Home Rule

New York, June 22—Governor Alfred E. Smith's name will go before the Democratic convention next week with the clear understanding that his candidacy for president has brought about no change in his views regarding prohibition.

His attitude was clarified today by a statement answering newspaper interviews. He declared he had not changed his belief that there should be an amendment to the present prohibition provisions.

Although silence was urged on the question on the ground that bone dry Democrats elements might be conciliated, close friends of the governor all along have predicted that when the time came he would announce a stand consistent with his record of years as an opponent of the Volstead act.

Mark Started Things

Governor Smith's announcement was precipitated by the flurry caused in Houston by Norman E. Mack, democratic national committeeman from New York.

Mack, without consulting Governor Smith's managers, issued a statement saying that the governor favors giving the states the right to determine the legal alcoholic content of beverages sold in their jurisdictions.

### PUT DRY PLANK UP TO GOVERNOR

Expect His Decision And  
It Will Govern Chiefs  
At Convention

Houston, Texas, June 22—Gov. Al Smith will make a decision at Albany or New York within 24 hours whether his managers are to make a fight at the Democratic National convention for a plank in the Democratic platform calling for modification of the Volstead law.

The governor's wishes on the wet-dry question will be carried out by the New York delegation to the convention, George R. Van Namee, pre-convention manager for Smith, declared here today.

When asked today if Governor Smith's latest declaration that he had not changed his views on prohibition meant that the New York delegation would fight for a wet plank in the platform, Van Namee said:

"Governor Smith alone will decide that question. He probably will reach a decision within the next 24 hours and will make known his views to the New York delegation before the members leave for Houston tomorrow. The governor, I expect, will tell the delegates just where he stands on this and other questions."

There seemed to be a feeling at the Smith headquarters that the

### STORM CAUSES \$50,000 DAMAGE TO TWO CITIES

Yellow Creek Dam Main  
Connecting Reservoir  
To City Cracks

### EMERGENCY PUMPS GIVE SMALL AMOUNT

Traction Line Tracks And  
Lincoln Highway Are  
Damaged by Rain

Wellsville is without its regular supply of water today, as a result of a break in a 16-inch main at the Yellow Creek dam, which connects with the city reservoir and supplies the city with water for fire and domestic uses.

The break in the main came as a result of the heavy rain storm which struck the East Liverpool-Wellsville district last night, clogging sewers, flooding and temporarily crippling service on the traction line between the two cities.

The damage is estimated at \$50,000.

The storm broke in the city about 8 p. m. yesterday, flooding Fifteenth, Seventeenth, Eighteenth and Commerce sts. and the cellars of all homes situated on these streets.

Two sewers on Eighteenth and Tenth clogged, while others were too small to take care of the large amount of water coming from the storm, inundating the streets and cellars.

No damage was reported to any of the houses.

A small amount of water was being supplied the city today through the pumps of the Pennsylvania Railroad and the American Sheet & Tin Plate companies, which were taking water from the Ohio and pumping a small part, generally applied to their own uses, into the city's water main.

The amount is very small, compared to the city's average use, and would be insufficient in case of fire or other emergencies.

It was stated today that it would be two or three days before the main can be repaired and the regular flow of water run through it from the reservoir, which is situated four miles from Wellsville.

The tracks of the interurban lines, just outside of East Liverpool, were swept away by a landslide. The slide also carried away a section of the Lincoln highway, making the road between the two cities dangerous.

### WHITE WAY IS STILL IN DARK

Tests Show Only Part of  
System Will Work; Try  
To Light It Today

More tests were made today of the city's new "white way" but city officials were unable to set a certain date for the first lighting of the system.

The lights were scheduled to go "on" Tuesday night, but a "short" in the circuit, during a test in the afternoon, forced a delay in the plans, and the old system has been used each night, while the electricians have been busy searching for the flaw in the circuit.

Tests today showed one circuit of lights working all right, but the second refused to light.

City Electrician Lee Saunders stated that it was hoped that the lights would work all right tonight but could not state for certain that they would.

### SEEKS \$50,000 IN TANK BLAST

Wants damages for Death  
Of Husband at East  
Palestine Nov. 5

Columbus, June 22—Asking \$50,000 damages, Mrs. Albin Frederick, administrator of the estate of her late husband, Henry Frederick, who was killed in a gasoline tank explosion at East Palestine Nov. 5, 1926, today filed suit in federal court here against the American Oil company.

In her petition, Mrs. Frederick names Clarence Layfield, Columbus, as defendant as he is the Ohio representative of the American Oil company.

According to the petition, her husband, father of six small children, was killed when he was working as truck driver for the Adams Oil company at East Palestine. The woman charges that the American Oil company delivered a defective tank car to the Adams Oil company.

The petition said that this tank exploded killing her husband when workers attempted to repair it with an acetylene torch.

MRS. WILMA SINCLAIR LE VAN  
(Akron Beacon-Journal)

Mrs. Wilma Sinclair Le Van, all decent people of Ohio salute you! You were frankly and honestly for something. You knew why you were for it. You refused to surrender your right to decide for yourself whom you would support for president, and after making that decision you had the courage to stand by it. You did so. You defied Ohio's political bosses and you took defeat without asking any quarter. You went into the convention knowing that you might be re-elected by making a compromise. You were not for sale. You wanted to be elected as national committeewoman from Ohio, but not at the price of a single principle which would have been surrendered in private life and which you therefore deemed sacred in politics. You steadfastly voted in defiance of the bosses with their impending sword hanging over you. You preferred right and honor to compromise and victory, and now that the sword of the bosses has fallen every Ohioan who loves honor will rise up and pay you that respect which is worth more than rubies and fine gold, aye, worth much more than an office bought by surrendering that which is right.

There are those who say that women are unstable in politics. There are even those who say they have not more principle than men. However, as one watched your calm and righteous courage going as straight as the swallow flies while your poor male colleagues were dickered with bosses and buying gold bricks that were not even delivered, one recanted all his prejudices against the lady delegate. You were indeed the one, the only one, bright spot in that crowd of male pygmies and ward politicians for hire. Those who defeated you because you courageously performed your duty thereby advertised to the world that at last Ohio is in the hands of that brand of politicians whose noblest emotions are aroused by the cash register. You therefore have nothing to regret. You have justified your fine lineage and you have shown, amidst a pack of political fixers and cowards that superior intelligence and high sense of honor which confers upon you that distinction which no victory and no office could have conferred. Again we say, Ohio is proud of you and one can do no less than offer you that admiration which you so richly deserve.

## DON'T EXPECT TOO MUCH

Are you fully grateful for favors shown you—or do you take them as a matter of course?

You may accept the good offices of a friend as something that you have a right to expect.

While this may be true it is good to be appreciated and your friend thinks so, too, when he has done you a good turn.

It is easy to expect too much from friends.

Friends judge you more gently than others, perhaps, but there is a limit to leniency in even the strongest friendships.

A real friend is as ready to give as to accept.

True friends are glad to show the pleasure they derive from little attentions.

True friends give freely in the spirit of "what is mine is thine," but an arrogant spirit of acceptance can kill the friendliest feelings.

With friends it is not intrinsic that is most treasured.

The spirit and the ability to give are a wonderful combination.

But it is the spirit that gives the greatest comfort.

## What Others Say

ONE OF THE WEST'S OWN  
If the Republican national convention had designed in advance to select a running mate for Herbert Hoover who as a matter of pure practical politics would suit both ends and the middle of the electorate it could not have done better than to decide upon Senator Charles Curtis of Kansas, the Republican floor leader. That is to say, Mr. Curtis has been a regular of regulars in his support of the Coolidge

administration, he has been friendly enough to the McNary-Haugen bill not to offend its professional sponsors, and he has treated the insurgents of his party with such consideration that even before the convention assembled such party outlaws as Nye of North Dakota declared that if Norris, of Nebraska, could not hope to win, the insurgent group would be contented with Curtis of Kansas.

Senator Curtis was the first man to announce his candidacy for president in formal fashion, and he was very sincere in his expectation of victory; so sincere, in fact, that he scorned any suggestion of second place, in such language as to make him persona non grata to Mr. Hoover, were it not that that sagacious gentleman, as well as all the friends of the Kansas senator, knew that his bark was worse than his bite; that he is the most loyal of Republicans under any circumstances.

Partly of Kaw Indian blood and therefore an original American, a jockey in his youthful days, but a boy who earned the money which educated him, and who made his own way in the world, Charles Curtis is one of the sweetest characters in the realm of politics. He has not an enemy in the senate, where his diplomacy has been turned to account in a thousand embarrassing situations, and despite his regularity he like Moses of New Hampshire has not incurred the special ill-will of the pseudo-Republicans. He is a clever politician but not of the self-seeking type; his fantastic candidacy for first place notwithstanding. His position as Republican floor-leader has made him perfect a harmonizer and because of that position in the trying four years which have just gone by, his colleagues have not expected him personally to be a champion of any issue.

Senator Curtis is a dry, he is not an offensive partisan of the farm relief extremists—he put in a bill of his own which did not authorize the equalization fee—and he as admirably reflects the sentiment of the old-time west as any man that could have been selected. If he is of presidential size, it is because the most intimate possible experience with governmental problems has trained him into an efficiency which might not have been developed had he occupied a less responsible position in the senate. The west can not attack Curtis—and Curtis is one of its own. It was this realization, unquestionably, that led the convention to decide upon his nomination for second place with such practical unanimity.—Boston Transcript.

mouth into the lungs and so to the air cells. In complete edema the air cells would be filled from fluid supplied by the blood.

Fortunately such serious cases are not common. Even if the attack is mild however the symptoms are severe.

First, there is a tightening in the chest and panting for breath. The difficulty in breathing increases. Coughing and frothy expectoration follow. The cough is constant and some blood may be expelled.

Naturally the difficult breathing is alarming to the victim. He becomes excited and is sure he will die. This increases the congestion and adds to the trouble.

Pallor, cold perspiration and weak pulse may be observed. In breathing the air passes through the fluid in the air cells and the bubbling may be heard. Noisy breathing is one of the symptoms.

The attacks may pass off in a few hours and then disappear only to recur. One authority tells of a patient who had an attack every week or two for two or three years.

The underlying condition should be given attention and every such it is important to consult the doctor.

W HILE this day may roll along at a lively pace, judging by the lunar aspect to Mercury, yet other testimonies point to certain futilities of purpose and action. The square of Saturn and the moon may be responsible for stubborn delays and difficult conditions, in which the health or mental attitude may be a disturbing factor. The inimical position of Mars, inciting to rash and tempestuous conduct, and the malefic aspect to Jupiter may help to negative results.

Those whose birthday it is may be confronted during the year by a series of adverse forces difficult to overcome, and which may be accentuated by unfortunate states of mind and body. ## SLAY BACHELOR AS HE SLEEPS

Shot Through Head Early  
Today In Residence  
Near Youngstown

Youngstown, June 22.—Max Id-  
dings, 27, a bachelor, living in the  
home of Mr. and Mrs. Russell Sigel  
on the Watson farm in Hubbard rd.,  
was shot through the head as he  
slept in his room early today.

The slayer, whose identity is un-  
known as is the motive for the  
killing, crawled into the room  
through an open window, fired from  
a revolver the bullet which entered  
the back of the victim's head, and  
escaped through the window.

Mrs. Sigel heard the shot and  
rushed into Iddings' room. Her hus-  
band was away.

She ran out into the road and  
stepped a motorist who came into  
Youngstown and notified city police.  
Sheriff Corli was notified in turn  
and took Deputy DeNiro to the  
scene of the slaying.

It was definitely established that  
robbery was not the motive for the  
crime, as currency was found by the  
Mahoning county officers under Id-  
dings' pillow.

## Woman Gets Month In Jail For False Divorce Testimony

Cleveland, June 22.—Mrs. Kath-  
erine L. Miller 34, was in Cuyahoga  
county jail here today serving a 30-  
day sentence imposed by Common  
Pleas Judge H. W. Ewing for con-  
tempt of court in connection with  
alleged perjured testimony in her  
divorce case. Judge Ewing after he  
bound Mrs. Miller over to the coun-  
ty grand jury yesterday relented  
and gave her the month's sentence.

The court set aside the divorce  
granted Mrs. Miller from her hus-  
band George L. Miller after he said  
he discovered that testimony given  
at Mrs. Miller's divorce hearing was  
false.

"I have learned that the grand  
jury adjourns tomorrow," Judge  
Ewing told Mrs. Miller. "I don't  
want you to stay in jail until the  
case is heard next term. I have de-  
cided to allow you to plead guilty to  
contempt. I have found that nearly  
all of your essential testimony in  
your divorce case is false."

## Subdue Stowaways Aboard Ocean Liner

London, June 22.—The liner Jar-  
vis Bay today was proceeding to

## FOUR CHINESE EXECUTED FOR TONG MURDER

Florence, Ariz., June 22.—Four  
members of a Chinese tong were  
executed at the state prison here  
early today for the murder of Tom  
King, restaurant proprietor.

The four Chinese who were exe-  
cuted were B. W. L. San, Shew  
Chin, Jew Har and Gee King Long  
Wen Long, fifth of the group,  
executed the nose through com-  
mutation of sentence.

The killing for which the four  
Chinese paid with their lives occur-  
red at Kingman, Ariz., in October,  
1923, during a prolonged and bitter  
war between the Hop Sing and  
Bing Kong organizations.

## COURT NEWS

### His Band Wins Decree

On the grounds of gross neglect of  
duty, Judge W. F. Lones has grant-  
ed a decree of divorce to Cyst Gross  
on the petition he filed against his  
wife Bertie Gross.

### Verdict For Defendant

A verdict for the defendant has  
been returned by a jury in the case  
of Alice G. Russell against Ray  
Welch of East Liverpool. The plain-  
tiff in this case sued the defendant  
for \$15,000 damages as a result of  
injuries alleged to have been sus-  
tained as a result of an automobile  
accident. The petition was filed  
Aug. 12, 1927, and testimony was of-  
fered that a few days after the ac-  
cident the plaintiff was observed  
hanging clothes in the yard of her  
home.

### Sale Is Ordered

Judge W. F. Lones in common  
pleas court refused to accept the  
election of parties to take property  
described in the partition proceed-  
ings filed by Louis F. Godfred  
against I. A. Chappel and others.  
The court has ordered a sale of the  
premises.

### Grand Jury Witnesses

Probably between 50 and 75 wit-  
nesses will be summoned to appear  
before the special grand jury that  
will convene Monday morning. It  
was announced today by Prosecut-  
ing Attorney R. M. Brooks.

Not more than 20 cases are to be  
considered, and all of these defend-  
ants, with one or two exceptions are  
now in custody of Sheriff George  
Wright. Others are out on bond.  
Majority of the cases to be inves-  
tigated originated in Wellsville and  
Salem, with a scattering few from  
other townships.

The jury will make its report to  
the court late next Tuesday after-  
noon, and arraignment day will  
very likely be set by the court for  
Friday, June 23. It may follow that  
some cases will go to trial the week  
of July 2.

In disposing of these cases the  
crowded condition now existing at  
the county jail will be relieved. Up  
until last Monday the record at

the county jail will be relieved. Up  
until last Monday the record at the  
county jail showed 50 prisoners, al-  
though the peak record stands at 53.  
Since Monday, however, several  
prisoners whose terms in jail ex-  
pired have been released.

### Wives Seek Divorce

Gross neglect of duty for over  
a period of three years has been  
charged in a petition for divorce  
field in common pleas by Margaret  
L. Ernest, of Salem against her hus-  
band Harry L. Ernest. The couple  
were married at Salem Oct. 16, 1919.

Gross neglect of duty for a period  
of 10 years is charged in the divorce  
petition filed in common pleas by  
Elizabeth Nuzum against her hus-  
band, Alva Nuzum, whose present  
whereabouts are unknown to the  
plaintiff. She was compelled to  
leave him, the petition relates, May  
19, 1926.

The couple were married May 30,  
1904. In the charge of extreme  
cruelty, Mrs. Nuzum declares her  
husband cursed and swore at her  
and choked her.

### Confirms Sale

A sale has been confirmed and a  
deed ordered by the court in the  
foreclosure suit filed by the Union  
Savings & Loan company against  
William Rex and others. On April  
30 last, the court entered a judg-  
ment in favor of the plaintiffs for  
\$802.16.

## Cyprus Excavations Show Royal Palace "Lost" for Centuries

Stockholm, June 22.—Interesting  
progress in archeological excava-  
tions in Cyprus are reported by Dr.  
Elmar Gjersad, leader of the Swed-  
ish Archeological Expedition in Cy-  
prus in a telegram to the Dagens  
Nyheter.

"At Vouni, or the ancient Athen-  
ian colony of Alpeia," the telegram  
reads, "the excavations have result-  
ed in complete success. A royal pal-  
ace, dating from the end of the  
classic period has been discovered.  
"Some of the finds are extremely  
beautiful. Most of the statues are  
feminine, some being exact  
copies of the Greek statues on the  
Acropolis."

"The status are of stone and  
terra-cotta, and almost without ex-  
ception they show Greek influence."

Tokio.—Attempts of a man, ap-  
parently mentally unbalanced, to  
reach the Emperor Hirohito as he  
was proceeding to visit the grave of  
the recently deceased Princess Hisa  
caused a commotion in Tokyo's  
streets recently and resulted in the  
man's arrest. He told police he  
wanted only to present a petition  
to the emperor complaining that  
the authorities had stopped the sale  
of his "tubercular cure" which he  
analyzed as a concoction of dried  
snakes.

## DEMAND LEWIS ALTER POLICIES

Herrin Mine Union Seeks  
To Get Referendum  
On Wage Stand

Herrin, Ill., June 22.—Members of  
the United Mine Workers local  
union here went on record today in  
one of the most drastic resolutions,  
demanding release from the present  
policy pursued by the administra-  
tion of John L. Lewis, international  
president.

The resolution put the miners on  
record as condemning the wage  
scale adopted in the several con-  
tracts signed with individual as an  
"unbearable policy," and demands  
that the entire matter be sent to  
the miners for referendum vote.

The resolution condemns the pres-  
ent day wage basis for contract for  
mechanical devices in the coal mines  
of this state and demands that it  
shall be terminated by a contract

which shall provide a tonnage basis  
instead.

The miners demanded that John  
L. Lewis, international president re-  
assemble the international policy  
with the object of releasing the var-  
ious district organizations from the  
present policy.

The resolution said in part:  
That it is the unanimous and sin-  
cere conviction of this body of min-  
ers, that the situation in the coal  
mining industry in Illinois has  
reached such a crisis that the pres-  
ent condition is no longer endurable  
by our membership.

## Miss Jane S. Campbell Is Bride of William B. Tucker

The home of Attorney and Mrs. Ralph W. Campbell, Lincoln ave. was the scene of a beautiful wedding at 7 p. m. Thursday when their daughter, Miss Jane Schiller Campbell, became the bride of William Boyd Tucker, son of Mr. and Mrs. Percy B. Tucker.

The ring ceremony was performed by Dr. P. H. Gordon, pastor of the Presbyterian church, in the living room before an improvised altar banked with ferns and white lilies. Candelabra and orange blossoms were also used in the decorations.

The bride's dress was of white satin and lace. She wore a veil of lace and white and carried a bouquet of white water lilies. Miss Ray Schilling, the bridesmaid, wore a dress of pink point d'esprit lace and carried a large old-fashioned bouquet of mixed flowers. After the ceremony Miss Schilling caught the bride's bouquet. Jerry Coleman of New York City was the best man.

Immediately after the ceremony dinner was served to the guests. At the bride's table covers were laid for 22. The centerpiece on the table was a large bouquet of white roses.

### Marriage Licenses

A marriage license was issued to William B. Tucker, Pittsburgh, Pa., formerly of Salem, and Miss Jane S. Campbell, daughter of Mr. and Mrs. R. W. Campbell, also of Salem. They were married by Dr. P. H. Gordon. William H. Parker, a machinist residing at East Palestine, and Miss Dorothy K. Shaffer, daughter of Mr. and Mrs. Frank Shaffer of East Palestine, have obtained a marriage license, and were married at Lisbon by Rev. C. N. Church of the M. E. church.

The same minister pronounced the marriage service for Joseph Burkhardt of Lisbon and Miss Luella Bush, also of Lisbon and daughter of Mr. and Mrs. Marvin Bush.

Clarence Toot of Lisbon and Miss Irene Parsons of Salem, daughter of Mrs. John Parsons of Salem, after securing a marriage license were also married by Rev. Church. William Heiter of Wellsville, a blacksmith and Miss Mary Comer also of Wellsville, and daughter of Mr. and Mrs. Frank E. Comer have obtained a marriage license and were married at Lisbon by Rev. J. C. Cotton of the Presbyterian church.

### Bethlehem Class

Officers for the coming year were installed at the meeting of the Bethlehem class of the Methodist church, at the home of Mrs. Chester Kirkbride, teacher, Ellisworth ave., Thursday afternoon.

The 15th anniversary of the class was observed, all past presidents of the class since its origination being present except three. More than 50 persons were present.

Plans were made for a picnic to be held by members of the class and their friends at Centennial park, soon. No date was set for the occasion, final plans to be made at the next meeting of the class.

A luncheon was served by Mrs. Kirkbride, assisted by the incoming officers.

Games entertained and a short business meeting was held after the supper at the educational building. The secretary's report was given and it was decided to hold election of officers on July 1 at Sunday school.

### SMITH AFFIRMS

(Continued from Page 1.)  
The governor hopes that the convention's prohibition plank will square with Governor Smith's position.

The governor was asked: "In view of the questions raised at Houston by Mack's statement, have you changed your belief that there should be amendment to the present prohibition provisions?"

Without hesitating Governor Smith answered: "I have not."

### Denies He Will Resign

His attitude on the subject was clearly defined on the eve of the Madison Square Garden convention in 1924. He said then:

"I maintain that the present hypocritical attitude toward the whole question of prohibition would be greatly relaxed by having congress fix a maximum alcoholic content, based upon science and sound reasoning, thereafter leaving every state to enact any statute it pleases with regard to regulation of the traffic in light wines and beer within that alcoholic content, so that the state that desires strict prohibition may have it, and the state that desires light wines and beer within the alcoholic content prescribed by congress may also have what it desires."

Reports that he would resign the governorship after being nominated were spiced by Governor Smith.

### PUT DRY PLANK

New York governor would not insist upon the incorporation of a wet plank in the platform, although he personally favors modification of the Volstead law.

The governor's managers are said to feel that because of his record in New York state, he can run on a platform which might contain a plank declaring for rigid enforcement of all laws, even the Volstead act. They point to the fact that Smith called a conference of all law enforcement officials in New York state a little more than a year ago and at that time served notice he would remove any official who failed to enforce every law, including the Volstead law.

within the prongs of the structure. Sam Houston Coliseum, where the Democratic party may make history, cost approximately \$200,000 and the Hospitality House, an additional \$25,000.

### Is 326 Feet Long

The coliseum is roughly 272 feet wide, and 326 feet long, with the center, or main span, running the entire length and the side spans on the ground floor 120 feet. The floor is of concrete with a covering of asphalt to deaden the sound. The height of the center span is 58 feet from the floor to the dome, and the roof, unique in construction, is supported by columns 14x14 inches, made of long leaf southern pine. The roof, having a total floor space of about six acres, is the greatest span of roofing in the world. Known as the Lamella roof, it was perfected by a German engineer and has been used in the United States only once before.

On the main floor of the coliseum more than 4,000 seats have been provided, 2,500 reserved for the delegates and alternates, an additional 1,000 for the army of working newspaper reporters who will cover the convention for the newspapers of the world.

The promenade in the rear of the hall will accommodate 1,500, and the one tier gallery will care for the rest of the ticket holders.

the statute books.

### Other Plank Issues

But Miss Jesse Nicholson, head of the Women's Enforcement League, and the leader of the militant group which threatens to vote for Hoover if Smith is nominated, held a different version.

She declared Smith's reply to Norman Mack's widely discussed statement "reaffirmed Governor Smith's position as a wet."

Aside from prohibition, the Democrats, like the Republicans at Kansas City, must hurdle the farm relief issue in drafting the platform.

The foreign relations plank may be a highly contentious issue, but this is expected to be hurdled with a denunciation of the Coolidge-Kellogg foreign policies, particularly in Nicaragua, and an endorsement of the world court, with no mention of the League of Nations.

Strong language will be used in attacking alleged Republican corruption and incompetency during the last two administrations. A pledge will be made to "clean house and throw out the rascals."

## Markets

### OPENING IRREGULAR

New York, June 22—Stocks were irregular at the opening today, especially those of the rail, motor and copper groups. Radio Corporation started 4 points to 17 1/2 and Paramount Famous Lasky rose 3/4 to 12 1/2. The Oils were steady, with Standard Oil of New Jersey up 1/4 at 43 1/4, Standard Oil of New York up 1/4 at 34 1/4 and Pure Oil up 1/4 at 22 1/4. Packard Motor gained 1/2 to 73; Hudson Motor up 1/4 at 81 1/2 and Hupp Motor down 1/4 at 56 1/2. New York Central advanced 1/2 to 170 1/2, while Chesapeake & Ohio lost 1 1/2 at 180.

Industrial stocks made feeble response in the early trading today to the \$158,000,000 decline in brokers' loans reported by the reserve board after the close of Thursday's market. A few of the market leaders opened at higher price ranges, but the "demonstrations" were not very impressive, and industrial stocks were freely offered when the market showed signs of strength.

The rails made a better showing. Pittsburgh and West Virginia added 6 points to yesterday's 7-point advance as the result of the commerce commission's permission to construct a spur joining the Wheeling and Lake Erie lines. The better grade of dividend-paying rail stocks sold up 1 to 3 points from the previous close.

General Motors was offered in volume around 174 and was therefore unable to make much progress. Chrysler led the low priced motors, with a 3 point advance to 68 1/2. Willys' Overland reacted 2 points, while Studebaker advanced fractionally to above 67 short covering in radio accounted for its 5 point rally to 174 1/2. High priced mercantile stocks started a new advance, but were unable to continue more than a point or two. Seaboard Air Line railroad common and preferred declined fractionally on announcement of the passing of the semi-annual interest in the adjustment bonds, the bonds reacting 5 points at the opening of the market.

Call money was unchanged at 6 1/2 per cent. Commodity markets were generally steady with grain and cotton fractionally higher. A 13-point jump in Spanish pesetas was the feature of the foreign exchange market.

## PAY AS YOU GO CAMPAIGN PLAN

### Hoover and Curtis against Use of More Money In Drive Than Needed

Washington, June 22—With the basic reorganization of the Republican of the Republican campaign set up, G. O. P. chiefs today turned their attention to the all-important subject of cash and carry on the drive for the White House.

The financial aspects of the campaign were talked over by Dr. H. H. Work, the new chairman, J. R. Nutt, Cleveland banker allied with the Van Sweringen interests, the treasurer, and Herbert Hoover, the presidential candidate.

There will be no lack of funds for the Hoover campaign to maintain "Republican ascendancy for eight years."

It was learned, however, that Hoover has been pledged the support of many influential business men throughout the country who will be volunteers as unpaid workers.

In preparing the campaign and its disbursement Hoover's forces were mindful of the existence of the senate slush fund committee which is now in Chicago to inquire into a \$40,000 expenditure in Wisconsin and Minnesota during the primaries.

The Hoover-Curtis-Work organization has adopted a policy of "pay as you go." Hoover, it was learned, is opposed to incurring any large party debt during the campaign and hopes to have all obligations cleared away within a month or two after the election.

In Nutt the Hoover leaders feel that they have a treasurer of unusual ability. Nutt, besides his affiliations with the Van Sweringen brothers of railroad fame, is a well known Cleveland banker.

## MAC FARLANE IS LEADER TODAY

### Shoots 74 For Two-Day Total of 147; Others Follow Closely

Olympia Fields, June 22—Willie MacFarlane, tall, bespectacled scholar of the links, harked back to his championship days of 1925, this morning, when he shot the second round of the national open golf championship in a 38-64-74 to take a nominal lead over the field.

His two-day total was 147 but, with entries like Jones and Hagen yet to be heard from, Willie's ascendancy was not regarded as an altogether permanent one.

At this point MacFarlane was all of four strokes beyond the second man, Frank Ball, Atlanta, who collapsed after his 70 of yesterday to take an 81 for a total of 151.

MacDonald Smith also fell away from yesterday's form to take a 77 today for an aggregate of 152 to range into third position. Harry Hampton, Chicago, was fourth at this point with 153.

The nine hole totals follow: Harry Hampton, Chicago, 39; Horace Brand, Uniontown, 39; Willie Ogg, Worcester, Mass., 40; Rial Rolfe, Chicago, 38; John Cowan, Watertown, Mass., and Dewey Weber, La-Grange, Ill., 43; Jack Arant, Hollywood, Calif., 40; Ralph Kingsrud, Fargo, N. D., 41; Chet Beer, Taft, Calif., 44; and Ed Stokes, Denver, 38.

The first nines of Kingsrud and Beer were especially disconcerting, as the former had a 77 yesterday and Beer a 76.

## AUTO HITS WORK TRAIN; TWO DEAD

### Two More Injured, Result Of Cleveland Crash; Geer Is Blamed

Cleveland, June 22—Two persons were dead and two suffering injuries today the result of an automobile in which they were riding crashing into a work train of the Cleveland Railway company here last night, police declared. All the victims of the accident are from Cleveland.

Stanley Malec, 25, driver of the car was instantly killed while Edward Jonous, 24, died a few hours after the crash.

Mrs. E. Jonous, wife of Edward, is in a hospital suffering probable internal injuries and a possible fractured skull, physicians said. Yaro Peters received a deep cut to the forehead and bruises on the nose.

A defective steering gear is believed to have caused the crash, authorities reported.

### Tilden Beats Coen

London, June 22—William ("Big Bill") Tilden beat Wilbur ("Junior") Coen, young American tennis star, 6-2, 6-2, in the semi-finals of the grass court tennis championship tournament at Queen's club this afternoon.

### Killed By Beam

Marysville, June 22—Frank Hamilton, 68, of near here, was killed this morning when a beam from a grain shed on the farm of Curtis Connolly fell and crushed his skull. Hamilton and two other men were moving the shed.

### Coal Man Dies

Athens, O., June 22—Athens county citizens were today mourning the death of Joe B. Davis, 43, coal operator and sportsman at Kimberly, near here. Davis died at his home yesterday afternoon following an attack of heart trouble.

## PROHIBITION

(Continued from Page 1)

specific support and observance, Senator Harrison observed, then there is no reason why the convention should not go down the line for other laws about which there is controversy.

The extreme dries are talking of "drafting" Gov. Dan Moody, of Texas, for the leadership of the dry fight, and undoubtedly he will play a prominent part in it, but the plans have not yet crystallized to the point where a generalissimo can be agreed upon. As paving the way for such a selection, however, former Lieut. Gov. Lynch Davidson of Texas, was out today with a statement, criticizing Tammany's attitude on prohibition, and asserting that Mack "had let the prohibition cat out of the bag."

Outside of the platform scrap, the principal contest before the convention appeared today to be over the vice presidency.

## REED MANAGERS HIT AL'S STAND

### Jubilant As He Affirms His Stand On Dry Law In Statement

Houston, Tex., June 22—A wave of optimism swept through the presidential headquarters of Sen. James Reed here today following the announcement that Gov. Al Smith, his chief rival for the Democratic nomination, had reiterated an earlier stand for amendment of the prohibition law.

Reed's lieutenants predicted Smith would be eliminated because of the "radical wet views" and that with the New York governor would be stopped, the Missouri senator would be an easy victor. They declared Smith would be stopped because the Democratic party, with its long dry record, could not nominate a candidate who stood for amendment of the prohibition law.

Reed himself will arrive on the scene of battle this evening. He will see newspapermen at a conference Saturday morning and then he is expected to say something about prohibition himself. His record has been one of strict law enforcement and a year ago, he came out against and helped to defeat a wet referendum in Missouri.

At that time he declared the time was not ripe for a referendum on prohibition, although wet leaders all over the country had been demanding it. He has been looked upon as a wet, though, because he opposed adoption of the eighteenth amendment.

The Reed forces believed their cause was enhanced when Lynch Davidson, of Texas, a Dan Moody follower, issued a statement attacking Smith as a wet. Davidson said he believed Norman E. Mack, the New York Democratic national committeeman, had correctly stated Smith's views on prohibition. Mack had said:

"Governor Smith is opposed to prohibition; he stands for temperance."

The Reed lieutenants, meanwhile, began computation of votes. F. J. Prince, of the Reed camp, declared Smith's maximum strength would be 660 votes, while 734 is necessary for his nomination.

## PROBE CHARGES OF TOLEDO BAR

### Investigate Activities of Two Attorneys On Court Order

Toledo, June 22—Following the issuing of a court order by Comm. Pleas Judge James S. Martin, on behalf of the Lucas County Bar association, a committee seeking to determine the status of Attys. J. E. Steele and Judson R. Linthicum were probing recent activities of the attorneys today.

The committees were appointed by Judge Martin upon representations of the Bar Association which alleged that each attorney "has probably been guilty of improper conduct involving moral turpitude."

Steele entered a plea of not guilty yesterday when arraigned in Federal Judge Killits' court yesterday on charges of contempt of court, obstructing justice, and soliciting and accepting fees fraudulently. His bond was set at \$1,000.

Steele was accused of failing to file a petition in voluntary bankruptcy for Joseph Parker after soliciting the case from the latter. Steele was said to have collected a total of \$95.80 from Parker and it was alleged that the attorney had never been admitted to practice in federal court.

## Nutt Says Business And Not Politics Rule Hoover Race

Cleveland, June 22—J. R. Nutt, 59, president of the Union Trust Co. here, who was named treasurer of the Republican national committee yesterday, has long been an admirer of Secretary of Commerce Hoover, Republican nominee for president, and is well fitted for his new political position, his friends said.

"I have never taken part in things political," Nutt declared, "but now we have an opportunity to elect one of the best trained and best equipped men we've ever had. It's not a question of politics with me; it's a question of business."

## SEVEN CHARGED WITH LYNCHING

### Man Confesses Part And Implicates Others In Houston Case

Houston, Tex., June 22—With the confession early today of one of the participants, police declare the lynching of Robert Powell, a negro who was dragged from a hospital bed and hanged to a bridge near the city, has been completely cleared up. Powell had shot and killed a police officer.

The lynching, the first in Houston in the city's history, coming on the eve of the Democratic national convention, has deeply stirred the public.

Seven men were charged with the murder at a hearing before a justice of the peace today. They are: A. B. Wheeler, 26, boilermaker, John Kent, 27, ambulance driver, F. T. Shuck, 32, "Tack" Reese, 25, taxi driver; "Bubber" Kent and Howard Minton. Kent and Minton have not yet been arrested. Wheeler was the man who confessed his part in the lynching and implicated the others.

## The Latest from Hollywood

Mighty restful to the eyes, you'll admit, are these two newest of fashions to come out of the Capital of the Movies. Alternating stripes of silver cloth and green metallic weave form the interesting motif of the charming evening wrap which fascinating Ruth Taylor, film star, displays for your benefit. Not less engaging is the stunning ensemble which Joan Crawford sets off to perfection. The frock is of satin-backed crepe; a double fox fur of white and gray, a white and gray felt bag with hat to match and collar and cuffs of white lace complete the costume.

## Plays Meanest Trick To Get Presents at Russian Wedding

Gandaya, Russia, June 22.—The entire village has sworn vengeance on Abdul Meshady, assistant manager of the local textile factory, for what is considered a mean trick played at his recent wedding.

Meshady used to be the village terror, stealing fruit, picking pockets and snatching purses, but he grew up to be a good communist and married the prize of the village whose dowry included five mules laden with valuable rugs and several thousand rubles. Not satisfied with this, however, Meshady craftily planned a grand wedding celebration with a barbecue, the day after pay day.

A young bull was prepared for the barbecue, the bull was stuffed with a lamb, the lamb with a turkey and the turkey with a duck stuffed with apples. According to the local custom, he who gave the largest gift got the duck. When the hundred guests were assembled the bride, dressed in silks brought from Persia by her father, spread a silk shawl in the middle of the floor, and then filling silver mounted horn with old wine, offered it to the poorest guest. He drank the customary toast to the bride. "For you have many sons and all like their father," and threw five rubles onto the shawl. The rest of the guests were horrified, because none dared give less than the poorest. One by one they drank to the bride and sacrificed their week's wages to pride and tradition, until finally the richest merchant found himself throwing three hundred ruble notes with a grand gesture into the shawl. He got the duck, and the

## MISS CARSTAIRS TO RACE LINERS OVER ATLANTIC

London, June 22.—Miss M. B. Carstairs, Britain's foremost girl motorboat racer, has definitely decided to attempt in a speed-boat this year to beat the time of the fastest water passage of the Atlantic ocean.

She plans to start from the west coast of Ireland some time in October, making a stop at St. John's Newfoundland, for fresh supplies of oil and gasoline, and then to go on to New York. She is not attempting to engage the services of a male navigator to accompany her on her hazardous adventure.

### Try For Record

The Atlantic record is four days, 13 hours, 41 minutes, held by the Cunard liner Mauretania from New York to Queenstown. Miss Carstairs is credited with the ambition to do the complete trip of 2,335 miles in three and a half days.

The boat she will use is more or less of a "hush hush" character, but details of its construction and power are gradually leaking out. According to report, the hull is cylindrical, completely enclosed when at sea, and rather like a bottle-nosed whale in appearance.

The keel is a "V" in shape to the nose, and extremely flat at the rear. The hull is being made of consuetudinary triple-ply mahogany with an inner hull of light alloy. It is reported that embodied in the construction of the craft is a secret process which makes it practically unsinkable.

### To Carry Radio

Radio with a range of 500 miles will be carried, and two small per-

sones are being carried for observation and navigation purposes. Seating and sleeping accommodation is provided for four, including two mechanics. The boat will be propelled by two Napier Lion type engines of 450 horsepower each with twin propellers. The gas tank will hold 5,000 gallons.

Miss Carstairs is building two boats in secret to compete in the international racing motorboat trophy on the Detroit river in September.

## Colorado Governor Refuses Rides In Airplanes Or Autos

Denver, June 22.—When Governor Adams of Colorado refused to ride in an airplane, the populace called him wise, but they did not know that he often refuses to ride in an automobile.

When in Denver, the governor rides the street cars or walks, disregarding the two or three automobiles he has at his disposal. When

he goes to his ranch at Alamosa, he goes on the train, and when he arrives there he leads his trusty "Bronco" from the stable.

Recently the governor was obliged to make a trip to Fort Collins. Train connection to that city from Denver are inconvenient, so the executive was persuaded to ride in an automobile. When he climbed into the back seat of the high-powered machine, he said to the driver, who was the son of a state official:

"All right, young man, I'm doing this once. But don't you speed along at any 25 miles an hour."

New York—Harry C. "Bud" Fisher, cartoonist, received the entire estate of his father, Allen A. Fisher, who died in 1926, according to a transfer tax appraisal filed recently. The net estate was appraised at \$240,785.

## 75 Homeless Girls Make Suicide Plot; Foiled In Attempt

Kiev, Ukraine, June 22.—A suicide plot involving 75 former homeless girls between the ages of 10 and 16 was frustrated in the government orphanage near here two hours before its attempted execution.

One little waif of 13 got cold feet, crawled out of bed at 10 o'clock and told one of the attendants that at midnight half of the girls in the dormitory were going to drink poison and the other half were either going to hang themselves with bed sheets or hurl themselves out of the windows.

The girl, failing to convince the attendant, produced a phial of poison and begged her superior to sound the alarm. The dormitory was searched and 40 phials of various poisons were found tucked away under the pillows. They were obtained from the chemistry laboratory in the orphanage.

## Overloading Trucks May Cause Illness

Chicago, June 22.—Noisy trucks, that batter along over the pavements with a racket and din that grates on the ears and nerves of the public may be the direct cause of many nervous breakdowns and much sickness in the opinion of city health commissioner, Dr. Arnold H. Kegel.

An investigation into the overloading of trucks has been started here by council committee on efficiency, economy and rehabilitation and the health aspect is one that will be included.

Constant vibrating of buildings, dust and air among the evils attributed to overloaded trucks.

City dwelling, he pointed out, constantly reduces the efficiency of men and women, even at its best. The commission intends to eliminate, as far as possible, the causes of the urban mental distress.

"The average person may not notice the ever present demands on his vitality of the city life," Dr. Kegel said, "but they are there, nevertheless."

Apparatus that a few years ago was utilized for measuring the noise of elevated trains will be used to measure the clatter of overloaded trucks, the commissioner said.

Damage to the city's streets, from overloading, is estimated at slightly more than \$1,000,000 a year according to Dr. Kegel, and less of health is incalculable.

John A. Aberly, industrial expert; J. T. Connelley, chief sanitary engineer and Dr. Gottfried Koehler are among the men who will aid in the investigation.

## Prisoners In France Get Share of Wine

Paris, June 22.—France has yet to see prohibition—even for long-term prisoners.

The following six month supply of nourishment has been ordered for the penitentiary of Saint-Martin on the Ile-de-Re:

Thirty-two thousand quarts of wine; 10,000 pounds of potatoes; 5,000 pounds of beef; 3,000 pounds of white beans; 6,000 pounds of vegetables; 1,000 pounds of rice; 1,400 pounds of dried peas; 300 pounds of olive oil; 1,400 pounds of lentils; 200 boxes of sardines; 2,000 pounds of sugar; 600 pounds of chocolate; 600 pounds of coffee; and 8,000 quarts of milk.

## Glad and Sorry.

Stanley Pickut Jr. of Chicago explained to police that he killed his father because the lives of the entire family had been threatened. He is held pending legal action.

## Moslem Die-Hards Try to Retaliate For Veil Dropping

Beirut, June 22.—The daring Moslem woman who ventures in public without her veil is going to regret it, if the die-hards here can make good their threats. Proclamations have recently been issued here urging the holding up by force, if necessary, women thus undressed who appear on the streets of Beirut.

A recently published book by Zein Eddin, a Moslem woman, commending the introduction of modern western habits into Syria is said to be responsible for this renewed agitation against the discarding of the veil. The Moslem women have also, no doubt, been influenced by the example of Queen Souriya of Afghanistan, who was unveiled the whole time in Europe, and according to rumor intends to relinquish it altogether.

## Pay Monkey Duty To French Customs

Paris, June 22.—Monkeys might make good eating, declared the French customs officials recently when a shipment of orang-outangs arrived for the zoo from Sumatra, and thereupon charged twelve percent duty for the entrance of the animals.

Monsieur Ruhe, animal merchant, assured them he was bringing them for exhibition purposes only, but the authorities said one could never be certain and some clever French chef might have unveiled secrets on delicious monkey dishes.

Each one of the new arrivals cost the city two dollars and a half a day for its food, which means chiefly bananas.

If a baby camel dies its fleece is kept for the mother to smell occasionally to assuage her sorrow.

## Births and Deaths Fall Off In Paris; Divorces Unchanged

Paris, June 22.—Differences in vital statistics between 1926 and 1927 show 24,508 less births, 36,792 less deaths, and 8,202 less marriages, according to the Ministry of Labor.

The population of France on June 20, 1927 was 40,939,000 persons while that of the Department of the Seine, most of which is Paris was 4,628,637.

Totals for France: Births 741,718; deaths 676,666; marriages 337,864.

The number of divorces remained practically unchanged. The total for France was 13,487 and for Paris 5,374. There were 1,022 divorces in the department of the Nord, textile and mining region, or 550 more than the next highest out of ninety departments.

## 38-Foot Snake Is Seen In Missouri

Macon, Mo., June 22.—An expedition has been arranged here to search for a snake, which, according to numerous reports of farmers and others, measures thirty-eight feet in length. Residents of this city, Clarence and Ten Mile township relate having seen the monster declaring it to be a mammoth black snake, which is said to make its home in a swamp in the vicinity of Clarence.

G. O. Burst, a representative of the Mulford Biological Laboratories of Philadelphia, is here organizing the party to try and capture the reptile.

The "snake story" was confirmed by no less an authority than Congressman M. A. Romjue.

## Woman Doctor And Nurse Jailed After Medicine Mistake

Moscow, June 22.—Severe laws for negligence in the practice of medicine were invoked to send a woman physician and a hospital nurse to jail for six and three months respectively for causing the death of a woman patient by mistaking lysol for cough medicine.

Dr. Lazareva in the Sobolevo village hospital near Moscow, testified at the trial revealed, prescribed a dose from a certain bottle in the medicine cabinet. The nurse laid hands on a bottle of lysol. "This one," she asked Lazareva on the other side of the room. "This one," she asked Lazareva. "Yes," replied the doctor. The patient died the next morning. The nurse's plea was that she was merely following instructions in administering the medicine was held invalid by the court.

Pink and Blue Batiste Fashion Cool Summer Dress

VERY dainty and French is the combination of pale pink and blue batiste used in the dress pictured above. The bodice, which is pink, continues the French idea by tiny shoulder tucking and delicate embroidery, and by employing for sleeves and neck scalloped bands of blue batiste.

The lower blouse section takes on blue batiste which gathers into a low belt over a moded hipline. Rather deep skirt pleating completes a perfectly entrancing model.

The airplane is gaining so fast in popularity and speed that it won't be long until you'll hop in your "plane" and fly away to Chicago right after breakfast and back home again before supper. But speaking of distance—you're a million miles from nowhere when you've ten little debts to pay and even the world's speediest craft won't do much good.

What you need is a small loan to pay up everything you owe. Then you can head straight for the landing field and glide down to earth again without any trouble at all. Come in anytime and borrow as much money as you need whether it's to pay bills or to paint the barn.

## ALABAMA MAY PLACE DONAHEY IN NOMINATION

Friends Silent But View Rumor With Evident Satisfaction

Columbus, O., June 22.—Without comment, but with evident satisfaction, friends of Governor Vic Donahey here today received reports from Houston, Texas, which told of an unconfirmed declaration that Donahey's name will be presented to the Democratic National convention next week as a presidential candidate by the Alabama delegation.

On all rallies, Alabama will be the first state called.

It was indicated, according to this report, that a number of other southern and western states may follow Alabama in supporting Donahey.

Governor Donahey is spending the week end at his summer cottage at Indian Lake, Logan county. In his absence from the statehouse, officials at the governor's office expressed belief that the governor would not discuss the rumor.

Officials of the Democratic State organization were absent from Columbus today. Attacks at Democratic State headquarters were not in a position to indicate what the effect upon the Ohio delegation to the Houston convention would be in the event that Alabama and other states should cast their votes for Donahey on the initial ballot.

Prominent Ohio Democrats have openly declared that, although the Ohio delegation is pledged to vote for former U. S. Senator Allee Pomerene, Cleveland, for first choice, and former Congressman George White, Marietta, second choice, most of the Buckeye State delegates are friendly to Governor Al Smith and desire to swing to his support at the earliest opportunity.

## GLEDHILL HEAD OF ODD FELLOWS

John Hassler, Lisbon, Is Named Grand Conductor at Bucyrus

Urbana, O., June 22.—Installation of officers to head the 89,000 Odd Fellows in Ohio took place at the closing session of the five-day convention of the state group of the Independent Order of Odd Fellows here today.

At the business session late yesterday New Philadelphia was chosen the state convention city for the 1939 convocation.

Officers installed this morning were: John W. Gledhill, Warren, grand master; J. M. Fitzpatrick, Ebel, Monroe county, deputy grand master; William T. Watkins, Marietta, grand warden; W. E. Crozier, Columbus, grand secretary; Dr. George Kolb, Cincinnati, grand treasurer.

Other officers include: Rev. L. P. Clark, Warren, grand chaplain; Maj. Gen. Fred H. A. Hahn, Toledo, grand marshal; John C. Hassler, Lisbon, grand conductor; Harry Murray, Warren, grand inside guardian; O. S. Ray, Hamden, Vinton county, grand herald; H. A. Sutton, Spencerville, grand messenger, and Charles F. Cross, Columbus assistant grand secretary.

Gledhill, new grand master, succeeds Chas. A. Summers, of Oberlin.

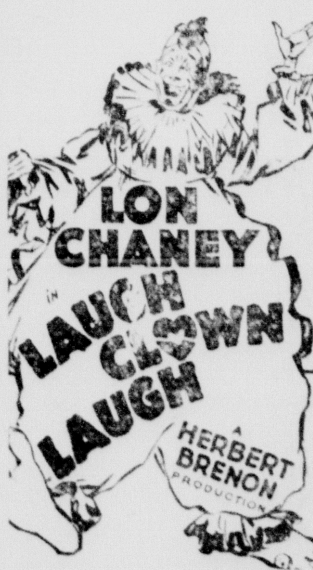

Approximately 250 delegates from the 78 Ohio districts were present at the five-day meeting.

A resolution to provide for the election as well as the installation of officers at the state convention was put before the convention but it was "tabled" until next year. At present the officers are elected by "mail ballot" some six months before the state convention.

# Mickey Walker Given Decision Over Hudkins And Keeps Title

**CHAMP CARRIED BUT 2 ROUNDS, WRITER'S VIEW**

Decision Unpopular With Chicago Fight Fans Last Night

WALSH BELIEVES MICKEY'S THROUGH

Did Nothing Steadily For Last Six Rounds; His Best Was Fourth

BY DAVIS J. WALSH  
Chicago, June 22.—They pulled one out of the hat for the boys at Comiskey park in the rain last night when they said Mickey Walker was the winner over Ace Hudkins in their ten round fight for the mid-western championship of the world. Walker didn't win, according to my scoring, any more than the same fighter beat Dave Shade out of the welterweight title in New York several years ago, or, according to popular indictment, any more than he won the title he now holds at the expense of the late Tiger Flowers.

But I've had a hard, hard life and somehow I find I'm mellowing in the aging wood very nicely. No longer do I react violently to decisions that fail to cajole my judgment. The pass has been reached where respect for the opinions of others has become strangely tolerant and the fact of the matter was that two local citizens, Ed Keen, a restaurateur, and Harry Carlin, an auditor, sat in the judges' chairs and said that Walker had won. Ed Purdy, the referee, voted for Hudkins but quite a few newspaper critics saw it the way the judges did. The crowd of some 30,000 didn't like it at all.

So maybe there was a margin of honest doubt about the business and maybe, too, I'm as blind as a hook without an eye. It must have been one or the other. It couldn't be both.

**Carried But Two Rounds**

Walker, as the writer saw him, carried just two rounds of the ten, one of them by a convincing margin. This was the fourth in which he had Hudkins drooling on the edge of a knockout from a flurry of lefts and rights to the jaw. This was Walker's big moment, virtually his only one, just as the seventh round was Dempsey's climax with Tunney. It also was Dempsey's anticlimax before the bell sent them on to another round and strangely there was some resemblance of this to Walker's failure to put Hudkins on the floor last night. One more punch might have won for both of them but neither had it.

Walker blew up with victory in sight. He arms and legs went dead when, by all the odds of the game, they should have been tingling with life. I think Walker is through.

Mickey was so weary after the fourth that he could barely lift his arms and then only to protect himself against Hudkins' incessant attack on the body. It is difficult to see how they could give a decision to a man who did nothing very steadily for the last six rounds. But they could; in fact, the matter was a trifle further than that. They did.

Some observers said they thought Walker won because he landed the cleaner punches. Personally, I would like to know just how many he landed, clean or otherwise, in the last six rounds and I'll even count the ones he would have liked to start had he been able. The champion just didn't have a punch in him for the second half of the fight.

## They Are Playing In National Open

Foremost stars of the golf world are playing in the national open at Olympia Fields, Chicago. Some of the big shots are, left to right: Gene Sarazen, "Wild Bill" Melhorn, Harry Cooper, Walter Hagen and Johnny Farrell. Below is Bobby Jones.

## JONES' CHANCES LOOKING GOOD

First Day In National Open Reeked With Many Surprises

Olympia Fields, Ill., June 22.—Matters looked no worse than extremely good for Bobby Jones, the chronic champion, as the greatest field ever assembled on one golf course made ready to have at it one more in the second round of the National Open championship this morning.

It perhaps would be going a bit too far, as they said about the man who walked very firmly out of the third story window, to declare that Jones cannot lose.

The first day fairly reeked with surprises that featured men like Ball, Cuic, Leonard Schmutte, Horton Smith, Johnny Jones and Fred Morrison in the first 10. The hardened campaigners who broke through in the same class were Willie MacFarlane, the 1925 champion; Freddie McLeod, Willie Hunter, Jim Barnes, Diegel, Leach and Golden and not one of them is quite the Jones type.

That applied, too, to the group immediately behind Bobby—Joe Turnesa, George Von Elm, Frank Walsh, Billy Burk and Roland Hancock. Good men all but they don't quite belong at the top.

## MULLINS BEATS CHURCH OUTFIT

The Mullins "mush" ball nine easily defeated the Methodists last night at Centennial park and advanced into second place in the City Playground Baseball League standings. The church outfit, dropped down to last place through the defeat. The score of the game was 20-8.

The Mullins outfit enjoyed four big innings, scoring seven runs in the second, four in the fifth, five in the sixth, and four in the eighth. Watkins pitched for the body-makers. Primm and Shears formed the losing battery.

The game Monday night at the park, between the Pottery and the Mascens will close play for the first half of the league.

## Risko Gets Three

New York, June 22.—Johnny Risko, the Cleveland heavyweight who takes on George Godfrey in Brooklyn tomorrow night, has been signed by Promoter Humbert Fugazy for three more bouts in Brooklyn this summer. Risko will fight Roberto Roberti in July and Paulino Uzcudun in August and will meet Jack Sharkey in September if he beats Roberti and Paulino, according to Fugazy.

At St. Louis—Jack Sharkey, championship contender, knocked out Leo Gates (3).

At Detroit—Billy Petrolle got decision over Bruce Flowers (10).

At New York—Jimmy McLarnin, Vancouver lightweight, knocked out Phil McGraw, Detroit (1).

Joe Ryder, Brooklyn, defeated Johnny Hoffinger, Battle Creek, Mich., featherweight (6).

## JAPAN SENDING 30 ATHLETES TO 1928 OLYMPICS

Mikio Oda, Waseda U., Is All-Round Athlete and Nation's Hope

Tokyo, June 22.—Japan, having participated in but two of the International Olympics, the first in 1912 when she sent two athletes who have yet to be heard from and again in 1924 when a delegation of 25 contestants made themselves apparent by sheer quantity if nothing else has high hopes for the 1928 games at Amsterdam.

In fact, Japan is sending 30 athletes this year whom they expect to carry off supreme honors in swimming, boating and horsemanship and not a few of the trophies in the track and field events.

The boating crew, drilled and trained for months, already has set forth via Siberia for England, having left Japan May 30, while the members of the swimming, track, field and boxing events will leave June 20.

## All Around Man

Mikio Oda, of Waseda university, an all around man, is the principal hope of Japan in the track and field events while Takashi and Tsuruta, the nation's leading tank stars will take over the swimming responsibilities. Kitaro Usuda, who recently turned his conquests homeward after winning the welterweight championship of the U. S. Pacific coast is Japan's sole representative in the boxing events while the best horseman in the nation's army, selected from the crack Imperial cavalry troops, will compete in the riding competition.

The boat crew, in departing for Europe, was able to indulge in the first rest they have had in months. But their leisure will be short lived for they have been ordered direct to England where they will resume training at Henley-on-Thames for five grueling weeks under the supervision of Dr. G. C. Bourne, captain of the Eton College Boat Club, who once rowed for Oxford vs. Cambridge.

## Trainer Goes Along

As a representative of the Japan Physical Training association which is in charge of the country's Olympic preparations, Dr. Seichi Kishi will accompany the athletes to Amsterdam. Jacoro Kana, president of the association and managers of the various teams also will make the trip.

## McLARNIN PUTS PHIL IN COOLER

Award Jimmy Technical Kayo In First From McGraw In N. Y.

New York, June 22.—Jimmy McLarnin either hits or misses.

He hit Sid Terris for a one-round goal, missed Sammy Mandell for 15 rounds and came back last night at the Garden to reinstate himself as a first-class fighting man by chopping Phil McGraw down almost as quickly as he disposed of Terris.

It was the first time that McGraw has ever been stopped. He was down five times in the first and only round, but he was upright when Referee Jack Dorman spiked McLarnin's guns. At least Phil can boast that no man has ever yet been able to spread and tack him down for ten seconds.

The official time of the technical knockout was 2 minutes and 45 seconds. McGraw was bawmy and practically out on his feet, yet he was able to stand up and feint drunkenly, and might have lasted the 15 seconds that he had to go.

The Detroit florist was disdainful of McLarnin's hitting power, and so came a cropper. Little "baby face" took his time about getting Phil set for the kill, but once he measured him the rest was just a matter of how often Phil could get up. McLarnin is now in line for another championship bout with Mandell.

## GIVE FEW HITS TO CUBS, CARDS

Divide Double Header But Both Are Great Games; Cleveland Wins

New York, June 22.—Hurriers of the Chicago Cubs and St. Louis Cardinals, celebrating the first day of summer in a double header at Chicago yesterday, unleashed some of the finest pitching ever crowded into one afternoon. Base hits were scarcer than crickets at a senior prom.

Sheriff Blake of the Cubs held the Cardinals to two hits and bested them 2 to 1, although his mate, Coach the Veteran Clarence M. Bell, for only five innings. In the nightcap the Cubs were limited to three hits by Sylvester Johnson and took a 1 to 1 licking. Johnson's victim was Charlie Root, who suffered his fifth straight defeat.

A paltry total of 17 hits was made by the two teams in the double bill. Hack Wilson hit two singles and a spectator who commented at length upon the Cub outfielder's failure to deliver any home run recently.

Another Johnson, Velepe Henry, pitched the Yankees to a 4 to 0 victory over Lefty Grove of the Athletics. The As now trail the Hugmen by 9½ games and must win today to get an even break on the series.

The Cardinals lost ground in the National league race as the natty Cincy Reds nosed out the Pirates.

## THEATER FRANK

Frank and Lillian Maye, former Salem residents, will return to the Grand tonight after an absence of two years to present their new novelty singing, comedy and instrumental act.

Maye has played here several times since the time, many years back, when he was a star on the baseball team here. He is well known in this part of the state and friends from surrounding towns expect to be in the audience tonight.

The feature picture is "The Escape," with Virginia Valli. In the supporting cast are William Russell, Nancy Drexel, George Meeker and William Demarest.

"The Escape," scenarized by Paul Schofield, is a modern adaptation of Paul Armstrong's stage hit and offers Miss Valli some of the finest moments of her screen career.

New York, with its teeming tenements and its glittering night clubs has been used by Rossen in thoroughly modernizing Armstrong's play.

In this colorful background Miss Valli appears first as a lowly girl of "The Kettle," and later, as the vicious hostess of the Blue Moon, a gilded club owned and operated by Jerry Magee, as portrayed by William Russell.

## CHANEY AT GRAND

Lon Chaney's "Laugh, Clown, Laugh," his new Metro-Goldwyn-Mayer vehicle is at the Grand.

The story is the famous stage play in which Lionel Barrymore electrified New York. It is a romance of the theater—the unseen side, with Chaney as the tragic clown, whose great love and even greater understanding of the heart of a woman

impels the terrific sacrifice that marks the climax of the astounding tale.

Chaney, as Tito, the clown, covers the gamut of acting. In the theater scenes he stages comedy—comedy one would never imagine Lon Chaney capable of. Then, as the man behind the grinning clown, he gives his audience a glimpse into the inner workings of a human soul in torment. It is gripping, enthralling. Loretta Young, a new Cinderella of the screen, is the girl—very beautiful, and, under Brenon's direction, talented. Nils Asther as Luigi, the lover, is a romantic figure who can really act, and Bernard Siegel is a convincing foil for Chaney in the role of the other clown. Gwen Lee as Diane is a blonde vamp who allures and charms. Cissy Fitz-Gerald is an adequate comedienne as Giacinta.

The great theater scene and other spectacular details are gorgeous but even their lavishness is secondary to the gripping thread of the story and the powerful acting of the star.

## Switzerland Teaches Young Women How To Manage Homes

Geneva, June 22.—Switzerland will soon boast the best housewives. A new system of apprenticing girls so that they may become excellent housewives has recently been adopted by 14 of the Swiss cantons.

The apprenticeship begins after one year of service. When the girl successfully passes her elementary examinations, she is turned over to a competent housekeeper who trains her in more difficult duties. Very good positions are guaranteed the qualified apprentice.

January 1 was made New Year's day in France by royal edict in the year 1564.

## Helpful Aids to Housework

Kitchen conveniences for summer use are often forgotten until the need arises. For instance, one would be lost without the wire ball-shaped lettuce or berry washer. Fresh lettuce from the garden needs thorough washing to free it from sand. After trimming and pulling apart, the washer may be filled with water. Twist and turn the washer and it will clean perfectly. Then the lettuce may be put into a cheese cloth bag on the ice to chill.

Berries may be put in the washer and turned in every way until they are freed from sand then they may be hulled and set to chill.

Now we have the electric egg beater or cream whip. Plug in and the whirlwind mechanism will do the work in a quarter the time allowed under old methods. The beater is not of complicated make so it does not take skilled labor to run it.

For those who are tired of sliding and slipping about over the woven bathroom rugs the gift of a sponge rubber mat will be an acceptable one. These mats cling closely to the tiled floor, are easy and pleasant to walk on and may be had in five or six colors with attractive mosaic designs. The mat is first cousin to the

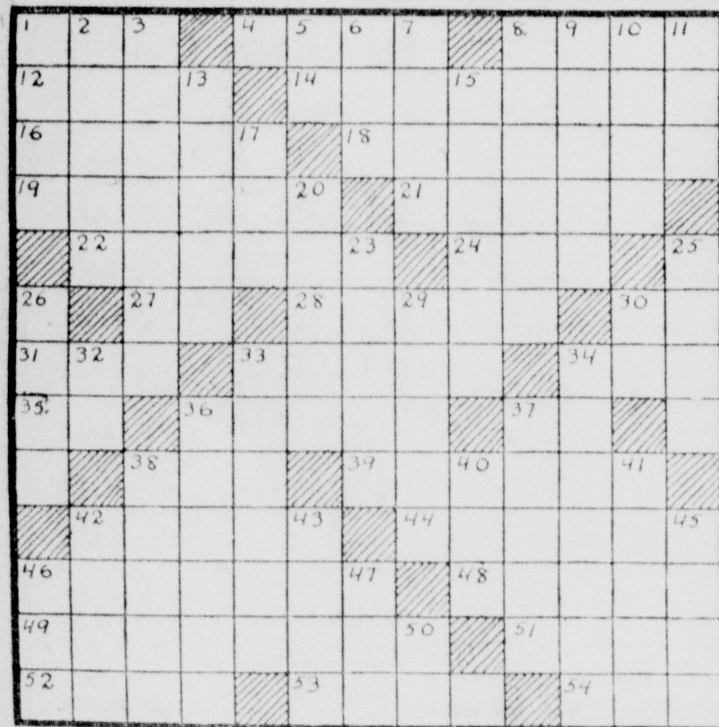

long narrow mat that goes in the bottom of the tub to prevent the unwary bather from slipping. The bathtub seat that fits over the sides is also a comfort in hot weather for a sitting shower.

To get back to the kitchen we remember with pleasure our cold cylinder glass jugs with nickel-plated tops and side handles with the slender ice cylinder suspended in the center. No ice comes in direct contact with the liquid within but it is chilled by the cracked ice contained in the cylinder. Melting ice weakens the tea, or coffee, and spoils other drinks made of ginger ale or milk.

A one-legged table cannot be called a cripple for it balances itself by resting on the arms of your chair. The leg is adjustable and can be raised or lowered at will. The table is convenient for writing on the porch, for solitaire, or to hold books or sewing.

The amount of garbage seems increased in summer from the fresh vegetable and fruit parings, so the new idea of having a receptacle buried in the ground which holds a removable bucket is a good one. The cover cannot be knocked off by dogs or cats, nor does its presence attract flies. There are three sizes available. The inside bucket is of light galvanized material with a handle for easy emptying.

# THE GUMPS—THE GIRL QUESTION

## STYLE EDICTS

Paris, June 22.—Irregularity continues to be the most striking characteristic of fashionable frocks and costumes this spring. As if wanting to get away from prim masculine lines, the dressmakers are designing their most feminine clothes by most irregular patterns.

Coats and dresses are ensembles, and extremely smart ones at that, by a mere threat which binds them together. But this does not mean the reversion to the old idea of the separate coat and frock. Each piece may be utterly unlike the other in color and fabric, and yet give the appearance of being meant to go together. Material and color are chosen to set off each other, to harmonize and not to clash.

There are printed and plain ensembles with either coat or frock printed and its accompanying garment plain; then there are printed ensembles with plain blouses and vice versa. Patterned and plain woolsens are also used and others with two colors of plain material or two sizes of printed motifs.

The tie was the unifying link on a charming model in sapphire-blue recently seen at the races. The coat came in tuskikasha which is half angora and half silk with a linen finish, and the frock of blue tussor with small plaids in white. The tie was like the frock. Irregularity was further noticed in the snug jumper and skirt with a coat which flared from the shoulder.

Mary Nowitzky is showing a jumper-blouse of rust-red crepe de chine trimmed with an applique band ending in a bowknot worn under a printed jacket edged with the same shade. The skirt is also of the print and has the irregular hemline which continues to be very much worn. It is longer on one side.

Evening gowns continue to dip toward the back and afternoon gowns also show a decided droop.

## Coyotes and Rats Eat Watermelons; Ruin Texans' Crop

Raymondville, Texas, June 22.—The coyote is occupying the attention of watermelon growers of this section of the Rio Grande valley at the present time. The hateful little animal is being vilified by one section of the community of growers, while others are loud in his praise.

Coyotes have been causing considerable damage to the watermelon crop, some farmers say. If the little beast ate his watermelon as a well bred coyote should do, they wouldn't mind so much, they say, but he merely takes a few bites from one of the luscious melons and then moves to another.

On the other hand, many watermelon growers maintain that the

coyote is their greatest friend because he is the open and avowed enemy of the rat family. Rats eat the melon seed and there have been cases where whole crops have failed because of the activities of the rodents.

## FIFTH ESTATE PLANS TO MAKE SCIENCE HUMAN

Institute of Chemistry  
Is Organized To Aid  
Understandings

Washington, June 22.—Science is to be humanized.

The "Fifth Estate"—that tiny group of scientific men and women embroiled in what is a veil of mystery to the lay masses—is preparing to draw aside the curtain that intolerance may be removed—that new understandings may be created.

To further this purpose an institute of chemistry has been organized by the American Chemical society and plans are being laid by the Washington headquarters for an initial meeting to be held at Northwestern university, at Evanston, Ill., July 1.

Chemists, in fact, the entire body of scientific men and women who are coming to be known as the "fifth estate" comprise so small a fraction of the world's population and are wrapped in so much of apparent mystery, that the masses of the people have relatively little accurate knowledge of their mission," said Dr. Frank C. Whitmore, chairman of the chemistry division of the National Research Council.

Dr. Whitmore has been appointed director of the new institute. He explained that even workers in the different fields of chemistry possess their science as a whole. He pointed to the fact that the science has become highly organized and that it thoroughly has systematic research displaced the garbled genius.

### Better Understanding

"Several agencies have contributed in recent years toward a better understanding by the layman of the problems and the results of the chemist," Whitmore said. "This understanding, however, is still far from ideal, therefore, the institute of chemistry accepts this phase of work as one of its chief problems."

"The institute has been organized both to make chemists better known to themselves and to the public. It is not designed to direct chemical opinion, nor to compete with colleges in the work of education."

Whitmore compared the new institute to the Institute of Politics at Williamstown, Mass. He said it would constitute a national summer center of science, bringing together scientists and laymen from all over the country for study and recreation.

According to Dr. Arthur D. Little, of Cambridge, Mass., a past president of the American Chemical society, the total membership of the "fifth estate" could at any time be housed comfortably in a third rate city.

"No politician makes a promise or invents a phrase to attract its scattered and ineffective vote," Dr. Little said. "Rarely do members of the 'fifth estate' sit in congress; when they do sit they sit in the gallery."

### No Political Influence

Little described the "fifth estate" as with less political influence than the sparse population of Nevada, despite the fact that it "has recast civilization through its study and application of the great and fundamental facts of nature and the laws of her operation."

"The 'fifth estate' has opened out the heavens to depth beyond imagination, weighed remote suns and analyzed them by light which left them before the dawn of history," Little said. "It has moved the earth from the center of the universe to its proper place within the cosmos."

"It has extended the horizon of the mind until its sweep includes 30,000 suns within the wisp of smoke in the constellation Hercules and the electrons in their orbits within the atom. It has read sermons on the rocks, revealed man's place in nature, disclosed the stupendous complexity of simple things and hinted at the underlying unity of all."

## Russian Literary Lights Snub Gorky As 'Gold Polluted'

Moscow, June 22.—Maxim Gorky, once the idol of young Russian writers and the intelligentsia, is being snubbed by the Soviet Literary Guild because he is alleged to be "polluted with foreign gold." The guild refused to send a delegation to greet Gorky on his return to Soviet Russia after an absence of several years. It refused to participate in any of the receptions in his honor.

A resolution passed by the guild after a lengthy debate accuses Gorky of treason. "When struggling artists in Soviet Russia were starving after the revolution," the resolution reads, "Gorky suddenly became ill and sought the sunny climate of Sorrento. When Gorky returned (the State Publishing company) paid him 500,000 rubles in back royalties on his books, he expressed love for the Soviet government. By living outside he earned a thousand times more than he could have in Russia. His sympathies follow the source of his income."

The resolution failed to dampen the reception arranged by the State Publishing Company. Gorky was welcomed with honor as the greatest living Russian writer, one of the earliest and most fearless sponsors of freedom for the masses.

No criticism has been offered by the Literary Guild of Gorky's recent writings. The revolution has failed to produce a novelist of anything approaching his calibre. Having in mind the unfortunate alienation of Chaliapin's affection, and the consequent irreparable loss to Soviet culture many believe that every effort must be made to cultivate Gorky to bolster up the standard of Soviet literary achievement both at home and abroad.

## A Fashion Model's Diary

By GRACE THORNCILFFE

She Writes of New Lace Dresses.

I have just adopted another money-saving device, and even though it's been done probably many times, I still think I'm smart.

I have an old lace dress. Lace still good. Style still good. But three years old.

It's done in a beautiful brown lace (that set me back a small fortune) over a brown satin slip. The skirt needed no altering, a label from a vestee arrangement making it still good. But the full angel sleeves were a frightful nuisance—always trailing in soup and catching on things. By cutting off the sleeves and joining them, I had enough material for a cape that I draped low on the shoulders and which two long lace tabs, running over the shoulders and down the front, appeared to be holding on.

Some new brown satin, a bit of velvet, a beige pearl buckle, some judicious steaming and there, all shining and neat, was a new dress. But that wasn't the half, dearie. That sort of dress does for less formal evening wear. My particular need at the moment is a dressier one. I'm going to a snooty party next Saturday night and I hate wearing clothes on the same group of people.

So what did our fashion model do? She dashed out for some pale pink satin and made a slip of it but looks simply knockout under the brown lace—making possible two completely different frocks.

Lace is so versatile—lots can be done with it and the grand part of it is that it is almost universally accepted. At the moment we are now at the shop numerous models that sponsor all over lace as well as many that combine lace joining with georgette and chiffon. Some imported models treat these

## Naumburg Observes 900th Anniversary

Naumburg, Germany, June 22.—This old city, renowned for its beautiful cathedral, celebrates this month its 900th anniversary.

The celebration, which began on June 10 with a street parade representing the outstanding events in Naumburg's history, such as its siege by the Hussites and happenings of the Thirty Years War, will conclude with the historic "cherry festival" on June 25 to 29.

This festival has its origin in the siege of the city by the Hussites

under Prokop in the first half of the fifteenth century. When the situation grew desperate, the Naumburgers sent a troop of some 500 girls and boys to the enemy camp to beg for mercy for the city. Prokop's heart was softened he gave the children cherries, and spared the city.

## Man Is Fined After Home Is Searched

Game Warden L. W. Boring of Lieben and C. E. Anderson of Alliance searched the premises of C. Craven, 1374 South Mahoning

ave, Alliance, which is in Mahoning county and obtained one 60-foot seine, two fish traps and one five-foot dip net.

Craven was taken before Justice of the Peace F. O. Brooks at Sebring and upon a plea of guilty was fined \$100 and costs, which he paid.

## New River Starts From Hill Spring

Paris, June 22—France has a new river. It sprang up recently on the property of the Oise department first only a little spring, increasing daily in size until the water started down the sloping farm toward the distant river Esches. The new stream crossed several

roads, passed close to the village of Bout d'en Haut and flowed on for several miles before joining the main river. At first it was only a rivulet of muddy water, but now the stream is clear and more than seven feet wide. The new river has every appearance of being here to stay and not the temporary result of recent rains in the vicinity. It has not yet acquired a name.

## Here Is Way To Tell Fish Apart In State

BY JAMES W. STUBER

Can you tell a large mouth bass from a small mouth? That's easy. Can you tell a pike from a pickerel or muskellunge? That's harder.

Lay a rule or stick from the V of the mouth to the V of the tail. Draw a line with a rule or stick from the center of the eye down across the other rule or stick. If the corner of the mouth is in front of the stick across the eye, where the markers cross, it is a small mouth. If it extends beyond the place where they cross it is a large mouth. The small mouth often has a red fleck in the eye. The large mouth generally has a black eye. The small mouth has dark verticle markings. The large mouth has a lateral line marking along its side.

Commonly speaking the corner of the mouth of a large mouth extends back beyond the eye the corner of the mouth of a small mouth stops in front of the eye. This is the simple easy way to tell.

### Two Kinds in Ohio

Large mouth are more likely to be found in lakes, ponds or quiet waters, and small mouths in swift water and streams. There are only two kinds of bass in Ohio, the large mouth and the small mouth. Such names as green bass, pond bass, yellow bass or grass bass, are only local names. The color of the bass is influenced by his habitat or surroundings.

Here is the common way to distinguish the pike, pickerel and muskellunge. The cheeks are scaled on the pike, with the gill covers scaled on the upper part. The lower part is bare of scales. The pickerel is fully scaled on both cheeks and gill covers. The muskellunge is without scales on the lower cheeks or gill covers.

Now that we can tell 'em apart, where shall we go to find them?

Lakeside—Lakeside is in Ottawa county on Lake Erie. It is reached by N. Y. C. railway from Toledo or Cleveland to Danbury. From Dan-

bury take Lakeside and Marblehead railway to Lakeside. Write Lakeside association for names of guides and locations. Good automobile roads via Fremont or via Port Clinton, to Lakeside. Within easy reach of East, West and Middle Harbors, Pelle Island, Put-In-Bay, or Sandusky marshes. Large and small mouth bass, pike, pickerel, rock bass and bluegills. Good camping.

Walwhoning river—Coshocton county. Reached via Pennsylvania railway to Coshocton. Drive to river by automobile from Coshocton. Hotel accommodations at Coshocton. Good camping sites along the river. Here is where Columbus and Cleveland fishermen go for small mouth bass and muskellunge. A few pike perch are also taken.

Muskellunge—The most beautiful of all muskellunge are the Ohio "Muskie." Down the Muskingum at Eagles Port or at Lakes Chute are good points. River drive from Marietta or from Zanesville down the river. Muskellunge are also taken at Ellis above Zanesville. Good small mouth bass and "jack-salmon" are also caught. Muskingum river catfish or "squealers" are plentiful.

Pennsylvania—In the heart of good deer and bear country, Pike County, Pennsylvania, is Peck's Pond. Trout streams are within easy reach. Perch bluegills, pike and large mouth bass are taken in the pond. Good grouse shooting in season. Agent of the D. L. & W. railway can give information.

## Navy's Altitude King

Lieutenant Arthur Gavin, U. S. N. (above) broke the altitude record for a laden craft when he climbed to a height of 18,500 feet in a seaplane with a one-ton load. The former American record was 16,000 feet. His plane was a navy type PN-12.

## Ironrite DuFold Ironer

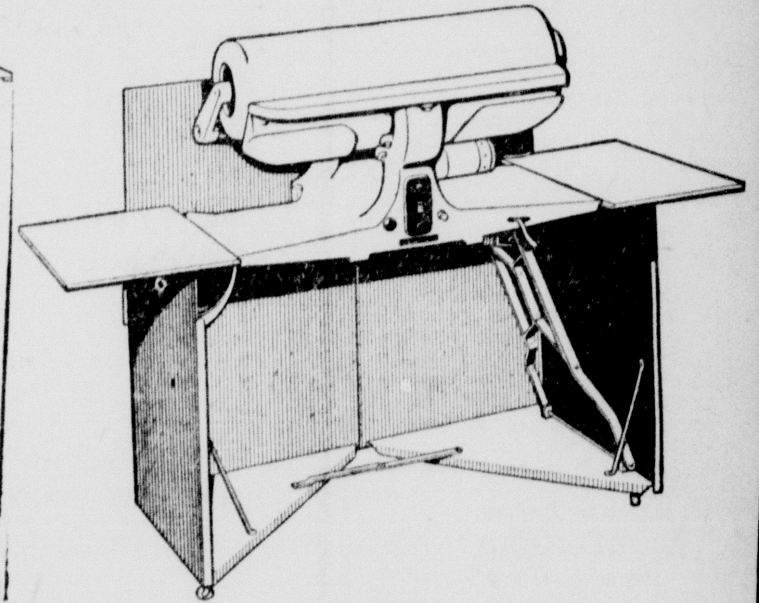

Saturday---June 23

Afternoon and Evening

Bring In Your Ironing

(Closed)

(Open)

The SATISFACTION! of an Ironing well done! Fold Up and Your IRON-RITE becomes a Handy Table

Sit down in a comfortable chair and iron with pleasure. Any garment may be ironed on both sides on either end of ironer over shoe or roll. This exclusive feature makes IRONRITE DUFOLD the outstanding Ironer for adaptability and handiness. Children's dresses, skirts, petticoats and shirts may be slipped over either end without folding. Sheets and table cloths are easily and quickly ironed. Coupled with correct heat and pressure, the IRONRITE DUFOLD produces peerless ironing results with an amazing saving of time and labor. In fact, it is so simple in design that even an inexperienced operator can do a perfect ironing on first attempt.

Neat and Compact—it is ideal for the small apartment or Kitchen

When folded into its dust proof cabinet, this, our newest labor saving appliance for the housewife, the IRONRITE DUFOLD Ironer, occupies only 16x18 inches floor space, no more than a kitchen chair. Ball bearing casters permit it to be easily rolled under the kitchen table or sink. May be used as a small table, filling a ready need in any home. The highly polished alloy metal feed board does not become sticky from heat or moisture, which tends to slow down rapid ironing.

## Indians Gradually Losing Heritage Of Racial Identity

Sacramento, June 22. — Engulfed by the onward rush of a civilization he fought valiantly but vainly to stay, the redman is gradually yielding his proudest heritage—racial identity.

The blood of the conquered is mingling with the blood of the conqueror.

Such, at least, are the findings of the paleface council — Gov. Young's executive cabinet. And the state, while it can help the individual Indian, is powerless to help him in the perpetuation of his race, according to A. R. Heron, state director of finance.

**Passing of Indians**  
Heron, in fact, believes that the white man can best help the red man by assimilating him. And regardless of sentiment or one's beliefs, the present Indian, as a distinct race, is passing from the stage, he informed the white chiefs.

"No less than 100,000 native Californians now have the blood of the original, but 'vanishing American' flowing in their veins, Heron ventured, and in addition there are some 100,000 Mexicans living in the state who are actually part Indian."

"Economically it is perhaps best that the Indian race disappear—be absorbed," declared the state official. "Attempts to help the redman have, in the past, flourished largely because of sentimental considerations—the desire to perpetuate a once proud and great race, rather than to help the individual to meet present day problems. I feel that we can and must help the Indian, but we cannot perpetuate his racial identity."

Abject poverty, ill health, undernourishment, isolation from the world of labor, inadequate school facilities, lack of medical and hospital care, barren acres, half-starved cattle—such are the barriers that confront the average Indian in California today, as painted by Dr. Walter M. Dickie, chief of the State Department of Public Health in his report to the council.

Dickie declared the average earnings of an Indian family today to be \$731 annually. And the minimum subsistence budget for such a family, as computed by his department, is \$1,117.20.

"We cannot cure their ill," he said, "until we first fill their stomachs. Medicine can do little for the man who is half starved."

**Health Program**  
The health director favored bringing the young men of the Indian tribes out of their mountain lands, into the valleys and fertile coastal regions, as one move toward relieving the problem. The old Indian cannot be induced to leave the land of his forefathers, he said, but the young braves, after a few summers in the valleys, probably would remain and merge with the white population.

A committee of the paleface cabinet, comprised of William John Cooper state superintendent of public instruction; Mrs. Anna L. Sawyer director of social welfare; Fred G. Stevenot, director of nat-

ural resources; Dr. Dickie and Heron, was appointed by Gov. Young to bring in recommendations on steps to aid the Indians.

# An Amazing Public Tribute!

*- two thousand carloads of General Electric Refrigerators delivered to users since April first*

The General Electric Refrigerator has now been on the market just one year. From the day it was first announced, it was accepted by the public with truly amazing enthusiasm.

Since April first, more than 2000 carloads have been delivered to American homes. This is a gratifying tribute to the General Electric Refrigerator—a true achievement in electrical engineering. It is the worthy product of the Research Laboratories of the world's largest electrical manufacturer.

*Nine factories working at top speed*

The tremendous demand for these "years ahead" refrigerators has made it necessary to increase production again and again—just as rapidly as is consistent with General Electric standards of quality. Now nine factories are working at top speed to take care of the increasing volume of business.

Just as soon as each refrigerator has passed its many rigid tests, it is shipped to a waiting customer. We are assured by the factories that all orders now on file will be filled within the next few weeks.

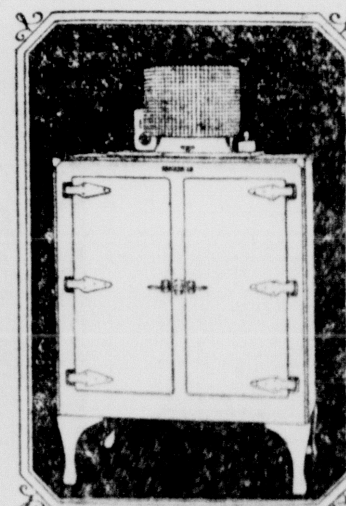

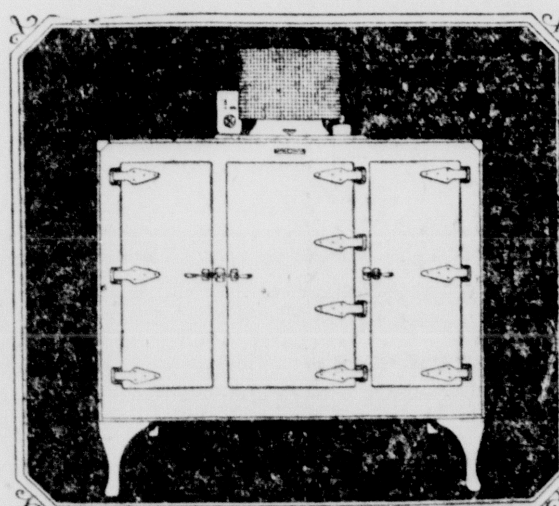

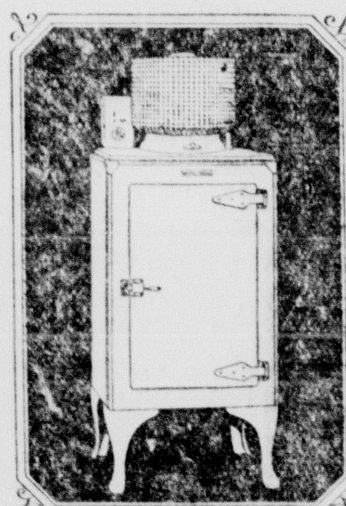

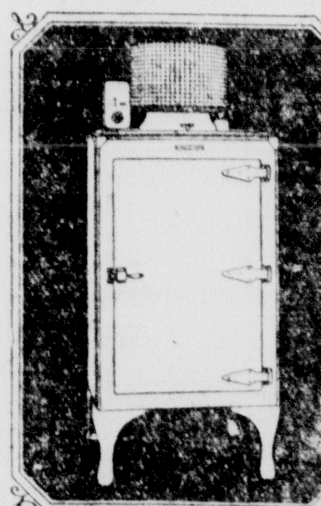

*We suggest that you place your order now*

If you are planning to purchase a refrigerator this summer, we strongly advise you to come in at once and place your order. Then you will be sure of having your refrigerator just as soon as you are ready for it.

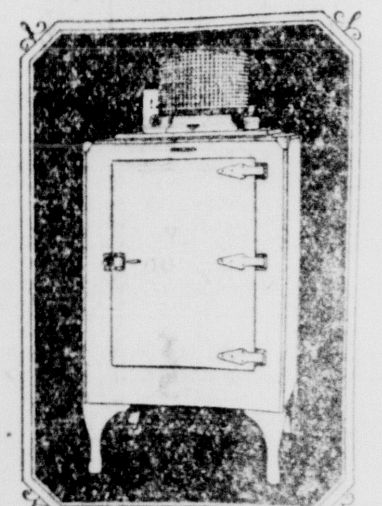

The first 100,000 discriminating American women to choose this revolutionary refrigerator have been its best advertisers. They have pronounced it unusually quiet, economical in operation, easy to keep clean and worry-proof. It is their verdict which, in a large measure, is responsible for this hearty nation-wide acceptance!

## GENERAL ELECTRIC Refrigerator

The General Electric Refrigerator is entirely different from all others. All its mechanism is safely stowed away, on top, in an airtight steel casing.

These refrigerators are unusually quiet, automatic, and they never need oiling. They are made and guaranteed by General Electric.

## LEETONIA

Mr. and Mrs. George Woods and son Jack; Mrs. Erwood Slater and Mrs. Ross Melinger attended the wedding of a niece of Mrs. Woods and Mrs. Slater; Miss Marian Adams and George Walton both of Cleveland.

Mrs. Mellinger was matron of honor at the ceremony Wednesday. The bride is the only daughter of Mr. and Mrs. Walter Adams, former Leetonia residents, until a few years ago when they went to Cleveland to make their home.

The Dorcas society was entertained Tuesday evening in a delightful manner by Mrs. Galen Lodge at her home on Columbia st. The feature of the evening was a miscellaneous shower for Mrs. Eugene Stiver, a June bride, and the daughter of Mrs. Lodge. She received a large number of lovely gifts of linen, silver, crystal, etc. Sewing was a diversion of the evening with refreshments served by the hostess. Mrs. Tillie McNulty and Mrs. Fred Spatholt were invited guests.

**Are We Getting Our Share?**

Quite recently We had to buy A new machine For washing clothes. And when we came To look around, We found that one Would cost as much As would a set Of Bath Room Fixtures. That made us think. Here was a thing That one would use But once a week While the outfit For the Bath Room Would be in use Not only daily But several times In every day, And yet it cost About the same. So figuring on The basis of The service rendered, Do you wonder That we asked ourselves Are we getting OUR SHARE? And we ask you The same question.

## ENGLAND SHIPS VAST SUPPLY OF LIQUOR MONTHLY

Bermuda and Bahamas First Recipients, Then Comes to America

London, June 22.—Eight thousand tons of brandy and whiskey are sent monthly from one English port alone to the Bahamas and Bermuda. That the majority of this liquor eventually finds its way into the United States is a foregone conclusion.

This allegation is made by a special correspondent of the London Daily Express, in an article describing present-day activities of rum-runners to defeat Prohibition enforcement.

Despite wholesale seizures and arrests on the part of the American authorities, this business of liquor smuggling still flourishes, and probably never will be altogether stopped, according to the correspondent.

**\$1,500,000 Cargo**  
"Each of these two vessels leaving the English port for Bermuda or the Bahamas," the correspondent says, "carries about 4,000 tons of liquor, and an average cargo is valued at \$1,500,000."

"On reaching the Atlantic islands the liquor is adulterated and conveyed secretly to the rum-runners' bases, to be rushed in fast motorboats through the American prohibition blockade. The value of the liquor when it ultimately reaches the consumer in the United States must be fabulous."

The correspondent takes care to point out that the shipping of liquor from England to the Bahamas is a perfectly legitimate enterprise. "But on its arrival there," he adds, "there begins a chain of astounding events."

"Nassau, in the Bahamas, is one of the ports used," the correspondent says in describing the methods used by the present-day liquor smuggler. "The adventure starts even with the negroes who come aboard to unload. The negro laborers are so keen on the drink that during night work they are said to cut the electric light wires, broach the cargoes in darkness and become gloriously drunk."

**Nearer Florida**  
"The next task is to convey the diluted spirit away to other islands nearer Florida. Bimini and Gun Gay, tiny islands some 70 miles from the mainland, are admirably suited for the purpose. There the cargo is either put ashore or loaded direct to motorboats fast enough to outstrip the American revenue cutters."

"The liquor has now changed hands, the American rum-runner spirit starts for the Florida coast being in possession. Before then, however, it again undergoes dilution by about 50 per cent."

"The American bootlegger generally makes his dash for the mainland at night, in super-fast boats. It is a 50-50 chance of him succeeding in making the shore, with a big prize if he wins."

Colorado Springs—Marooned at the top of Pikes Peak by a ten-inch snowfall, 25 tourists today awaited the clearance of the highway and cog road down the slope to permit them to end an enforced stay on the mountain. Work was rushed to clear both routes.
